## Professional Summary

Front End Web Developer with 2 years of experience building responsive, accessible websites using HTML, CSS, JavaScript, and ReactJS. Skilled in Git, Vite, and headless CMS development. Proven ability to manage multiple client projects in Agile environments while maintaining code quality and meeting deadlines. Strong background in team collaboration and cross-department coordination. Recognized as a top-performing developer with a passion for clean, user-focused design.

## Education

**Juno College**

**July 2021**

*Bootcamp, Web Development*

**Ryerson University**

**June 2014**

*Bachelor's, Retail Management*

## Professional Experience

**Q4**

**Toronto, ON, Canada**

*Web Developer II*

*February 2025 - April 2025*

*Web Developer II*

*January 2022 - September 2023*

- Developed and rebranded over 30 IR sites for clients, including Amazon, American Airlines, and General Mills, using Q4's proprietary CMS.
- Converted client approved Figma mock-ups to fully responsive websites with an emphasis on accessibility (WCAG), cross-browser compatibility, clean code, and a heavy attention to detail.
- Communicated with Clients and Project Managers to provide project feedback including any accessibility limitations and potential solutions.
- Utilized Git/GitHub to maintain code repositories for both website templates, and client projects.
- Participated in Agile development methodologies such as Kanban for efficient project management.
- Supported teams outside of Development, including Support and Optimization, where I provided post-launch/after-hours technical support to clients, and debugged/improved upon company templates.
